

## IMMUNIZATION EXEMPTION LETTER

### To Whom It May Concern:

I, Pastor Jonathan Shelley, am writing this letter to inform whomever it may concern that immunizations are against our church's doctrine and religiously held beliefs. This letter serves as a confirmation that the following individual, \_\_\_\_\_, holds to this Biblical position. We respect the rights of all citizens to make their own personal medical decisions and we believe we have the same right. The following is a list of a few verses that explain why we object to immunizations:

**Matthew 9:12** But when Jesus heard that, he said unto them, *They that be whole need not a physician*, but they that are sick.

**Haggai 2:13** Then said Haggai, If one that is unclean by a dead body touch any of these, shall it be unclean? And the priests answered and said, *It shall be unclean*.

**Job 14:4** Who can bring a clean thing out of an unclean? *not one*.

**Leviticus 15:13** And when he that hath an issue is cleansed of his issue; then he shall number to himself seven days for his cleansing, and wash his clothes, and *bathe his flesh in running water*, and shall be clean.

The following verses teach that people should not come in contact with unclean things such as dead animals, blood, bodily fluids, diseases or anything that has been defiled by such items. Immunizations present a contrary view of health and well-being by injecting fluids that either contain or have been defiled with viruses, animal products, aborted baby cells, and or toxic materials. Additionally, Jesus instructs people that they do not need to seek medical intervention when they are healthy. The Bible teaches immunity should be maintained through sanitation principles such as washing with running water, soap, hygiene, exercise, and quarantine of those that are sick.

Sincerely,

Pastor Jonathan Shelley
